

## WEST LEEMING BUSINESS PLAN 2023-2025 – PARENT FEEDBACK INVITED

What is your wish list for improving your child's education and West Leeming?

The West Leeming School Board is providing West Leeming families with the opportunity to share their feedback around aspects of your child's education that we are doing well and, areas where you think we could improve.

Parent feedback is important to us and therefore, we encourage you to participate in this opportunity to share your views through these two focus questions.

Your feedback will be collated and shared with our School Board so that we can ensure our next Business Plan 2023-2025 reflects all voices in our school community.
